Dear Hiring Manager,

My name is **Diego Perozo**, and I am a **Full Stack Developer** with experience building web applications and backend systems, participating in projects from initial design through development, deployment, and maintenance.

I have worked mainly with **Python and Flask** for API development and business logic, as well as **JavaScript and Express** for backend services and integrations. I am comfortable designing clean, scalable, and maintainable solutions, paying close attention to both code quality and overall product reliability.

Throughout my professional experience, I have collaborated with multidisciplinary teams, adapting to different workflows and development methodologies. I bring a problem-solving mindset, a strong sense of responsibility, and a continuous improvement approach to my work.

I am motivated to join a team where I can continue growing as a full stack developer, contribute my skills, and learn new technologies as required by the project.

I would welcome the opportunity to further discuss how my experience could be valuable to your team.

Kind regards,
 **Diego Perozo**
